Brian:

I just sent a response to this email with three spreadsheets attached. With the spreadsheets, the email may be over the size limit for your server. Let me know if you do not receive that email and I will resend it with the spreadsheets split into other emails.

Thank you,
Bob Owens

Bob

I did not see any data for PCBs or pesticides, did I miss something?

Thanks

Brian:

Attached are Excel spreadsheets of the detected compounds from the previous work performed by the PRP's. The spreadsheets are divided by AOC and each spreadsheet is divided further by media and COC. Let me know if you have any questions or need anything else.

Thank you,

Robert

Attached is a pdf of the signed FSP and QAPP for the Falcon Refinery RI/FS. Please note that EPA would like to schedule a meeting to discuss the sampling schedule after we have had an opportunity to review the PRPs original data. Please let me know if you have any questions and or when the PRP data set will be available for EPA's review

Thanks
